

## IBM SPSS Statistics version 30 Installation Guide for MAC

### Preparing for Program Installation

- The IBM SPSS Statistics version 30 can only be used within Mahidol University's network. To use the program outside of the university's network, you must connect to the university's VPN system before accessing the software.
- The license is provided as a Concurrent User. If the maximum number of users has been reached, you will not be able to access the program. It is recommended to try again later.
- Users can check the system requirements for installing IBM SPSS Statistics version 30 on the product owner's website at this URL:  
<https://www.ibm.com/software/reports/compatibility/clarity/softwareReqsForProduct.html>
- Ensure your computer is running macOS 10.15 or later.
- Your computer must be connected to the Mahidol University's network.

### Downloading the License Software

- Download the IBM SPSS Statistics version 30 installer from the Software Download system (Intranet only) : <https://softwaredownload.mahidol.ac.th/>

### Installation steps

1. When the installer is downloaded, extract the IBM SPSS Statistics V30 For MAC.zip file
2. Extract the zip file, you will find the Stats 30\_MAC.iso installation file

|                                 |                        |         |                |
